

The GEORGE Equine Clinic

From the competition horse to the retired pony – WE CARE

Veterinary travel fees - changes effective 1st January 2023

The cost of fuel, maintenance and the running of our vehicles has significantly increased over the last year. Whilst we have managed to honour our no-fee visits throughout, we have decided to review our daytime visit fees with effect from 1st January 2023. We will continue to travel to you without charge for those horses taking advantage of our Healthy Horse Club membership benefits.

We have also taken the opportunity to review our Zone Day areas which, whilst remaining largely unchanged, have increased to cover our now wider area. We offer a specified zone day, as indicated on the map below, which is available to all our clients.

Standard day visit fee is £49.50 (inc. VAT),
with the following opportunities for reduced fees:

No charge visit for Healthy Horse Club (HHC) care

This is available for vaccinations and dentistry included in the membership

Flexible Zone £12 (inc. VAT)

For non-HHC members who can be flexible on time and vet on their zone day. This is available for all preventative healthcare (dentistry, vaccinations and prescription checks).

Please book these in by the previous working day.

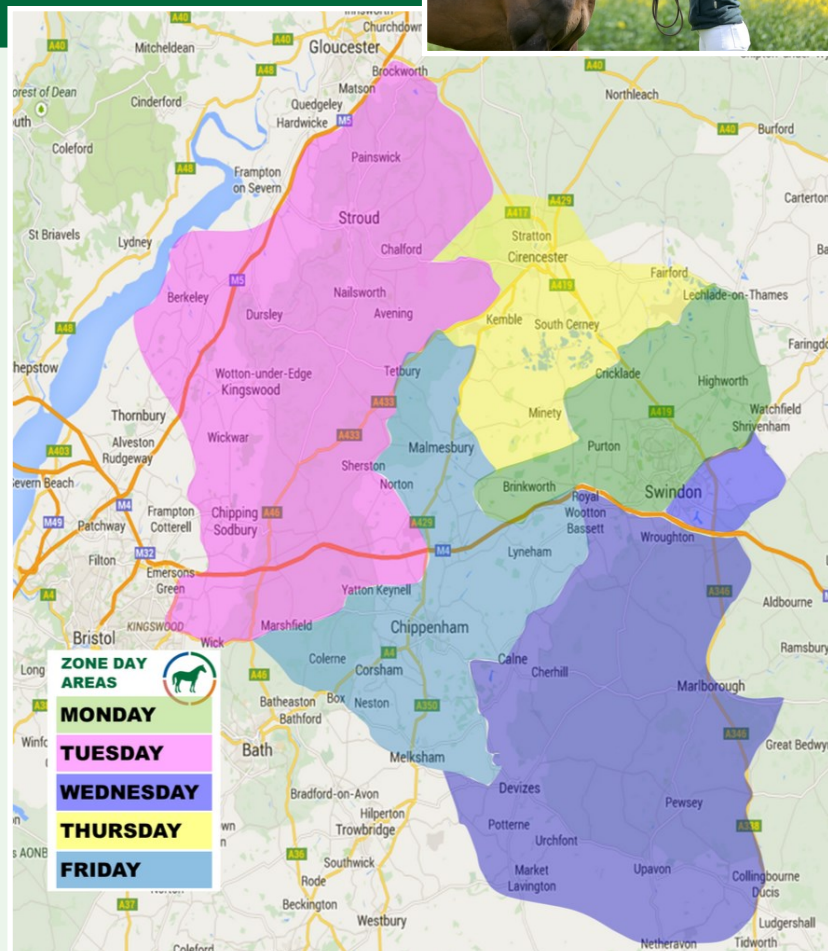

Zone £35 (inc. VAT)

An option for those who would like to specify either a time preference, or wish to request a specific vet for continuity of care on their zone day.

Please book these in by the previous working day.

Any visits to treat 3 or more horses at one premises do not incur a visit fee.

Should you prefer to travel to us, you can visit our equine clinic at Garsdon – you will not incur a visit fee

We provide 24/7 emergency care for all our clients' horses, for which different fees apply.

If you would like to find out more information about our **Healthy Horse Club***, and its benefits, then please don't hesitate to contact our office.
